

Media Release

Road change update

Release Date: 14 June 2012

Work to reopen Durham Street North has been completed faster than anticipated and the one-way system will now open by 6pm tonight.

The street will operate as one lane past the Crowne Plaza site through to the courthouse.

The planned re-opening of Gloucester Street will still proceed as expected tomorrow.

The cordon map on the CERA website will be updated tomorrow once both changes are in place.
