RAWHITI LANDING

EXPERIENCING NATURE

The saltmarsh and wetland environments of the Eastern Reaches provide ecological restoration opportunities. Away from the naturalised area, opportunities include trial and edge housing, ecotourism, sustainable farming and recreational activities that appeal to families.

THE GREENSPINE

Connecting people and place

The Green Spine forms the core of the Regeneration Area. About eleven kilometres long and 3.45 hectares in area, it extends along both sides of the river and provides the thread that brings the Area together. The Green Spine supports public access to the river, which in turn will stimulate community ownership of and identity with the Area. Seating, picnic and BBQ areas will encourage families and friends to meet up and enjoy time near the river.
