

TARGET

1

# Shorter stays in emergency departments

95% of patients to be admitted, discharged or transferred from an emergency department within six hours.

LEAD MINISTER

Hon Dr Shane Reti, Minister of Health

LEAD AGENCIES

Ministry of Health, Director-General of Health, Dr Diana Sarfati

Health New Zealand, Chief Executive, Margie Apa

## TARGET DELIVERY PERFORMANCE - QUARTER ENDING JUNE 2024

Target	Baseline	Current (March 2024)	Status
95%	68.0%	70.0%	Feasible

## PROGRESS TOWARDS TARGET

Proportion of patients to be admitted, discharged, or transferred from an emergency department within six hours

## TARGET DELIVERY ACTIONS

The Government is committed to providing timely access to quality healthcare for all New Zealanders.

The Government has appointed a Health NZ Commissioner focused on resetting the way Health NZ operates, primarily to address unacceptable waiting times.

Health NZ target implementation plan focuses on actions to:

- Improve patient flows through hospitals to ensure people get treated and discharged faster.
- Enable primary care to treat more patients in the community.
- Stabilise urgent care provision to ensure consistent access to urgent care across the country, and to redesign for rural communities.
- Strengthen the workforce to stabilise and grow the urgent care, nursing, acute medical and surgical, midwifery, and allied health workforces; and improve international recruitment activity.

## HOW TO FIND OUT MORE

Health agencies will report on progress each quarter. National and regional results will be published so New Zealanders will be able to see how their local hospital is performing.

Performance information about the health system is available at the Health New Zealand and Ministry of Health websites [www.tewhatauora.govt.nz](http://www.tewhatauora.govt.nz) and [www.health.govt.nz](http://www.health.govt.nz)
